Utilisation	Indoor

The 50-year anniversary of such an important lamp for Martinelli Luce as the Cobra designed by its founder Elio Martinelli certainly represents an important event for the company. For the occasion, a special version of the Cobra is produced, an interpretation by Emiliana Martinelli as a tribute to her father. The lamp comes in the exclusive night-blue color and is characterized by a series of holes on the cap representing the constellation of Scorpius, Elio's zodiac sign.

The lower body part turns on a steel made base connected with the upper body part by means of a central joint for a 360° rotation. The interior reflector/diffuser is white methacrylate opal.

Designed by Elio Martinelli in 1968, Cobra is one of the first lighting fixtures produced with a special resin molding system. The lamp is characterized by simple lines and a geometric shape inscribed in a sphere, but, with the rotation of the arm, the reflector takes a position that recalls the head of a cobra ready to shoot.

Family	Cobra Scorpius
Typology	Table
Utilisation	Indoor

Dimensions

Height	40 cm
Diameter	40 cm
Power supply cable length	40+200 cm
Weight	8,5 Kg

Materials

Structure	resin	Diffuser	methacrylate
Base	resin		

Voltage	230V
Non dimmable	

Certifications

IP20

Colour variant code

629/SC

Blue
